

Feature:- Invite Team Members
Settings---configure---Team Members---

After Sending invite to email id with containing . its not reflecting in UI
Correct EmailID is not showing in UI as well as DB

Email id used- nilesh.deulkar738@gmail.com and Invite.1@gmail.com
Actual result- nileshdeulkar738@gmail.com

The image shows two side-by-side screenshots of the tNest application interface, likely demonstrating a bug related to team member invites.

Screenshot 1 (Top): This screenshot shows a user profile for "Nilesh Deulkar" (NILEDEUL). The dashboard displays:

- Total Team: 1
- Active Team: 1
- Pending Invites: 1
- Team Limit: 1/100

The "Pending Invitations" section lists one invite:

- Recipient: nileshdeulkar738@gmail.com (Sent)
- Details: Invited by Nilesh Deulkar • about 1 hour ago
- Expiration: 1 day remaining

Screenshot 2 (Bottom): This screenshot shows a user profile for "abc test" (ABCGTEST). The dashboard displays:

- Total Team: 2
- Active Team: 2
- Pending Invites: 2
- Team Limit: 2/100

The "Pending Invitations" section lists two invites:

- Recipient: invite1@gmail.com (Sent)
- Details: Invited by abc test • less than a minute ago
- Expiration: 1 day remaining

- Recipient: abc@gmail.com (Sent)
- Details: Invited by abc test • 3 months ago
- Status: Invitation expired

In both screenshots, the invite to "invite1@gmail.com" is highlighted with a yellow box, and the recipient's name is listed as "invite1@gmail.com" instead of the expected "nileshdeulkar738@gmail.com".

Invite Team member complete flow--

Invite sent to new email id - contractinvesttest@gmail.com

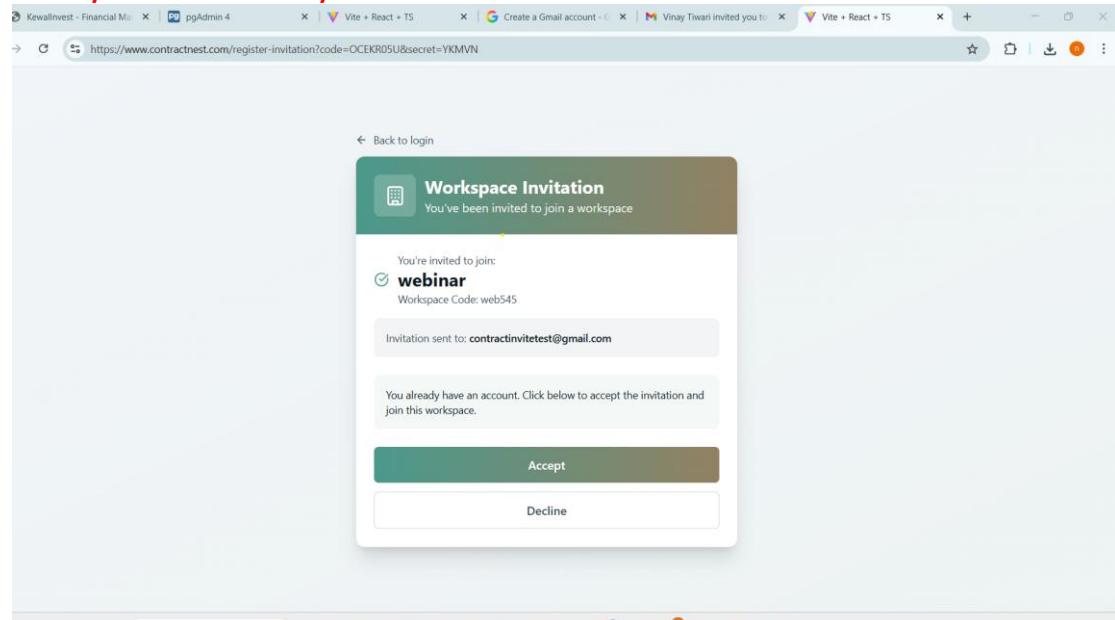

The screenshot shows the ContractNest web application's Team Management section. On the left, there's a sidebar with links like Getting Started, Dashboard, Operations, Contracts, Catalog Studio, and Settings. The main area is titled 'Team Management' with the subtitle 'Manage team members and invitations for webinar'. It shows the following metrics: Total Team (3), Active Team (3), Pending Invites (3), and Team Limit (3/100). Below this, there are tabs for All Team, Active, and Pending, with Pending currently selected. Under the Pending tab, there's a list for 'Pending Invitations' showing one entry: 'contractinvesttest@gmail.com' (Sent, 9191919191) invited by Vinay Tiwari less than a minute ago, with 1 day remaining.

The screenshot shows an email in the Gmail inbox. The subject line is 'Vinay Tiwari invited you to webinar'. The message body starts with 'Images in this message are hidden. This message appears suspicious. Don't show the images unless you trust the sender and the message.' It includes two buttons: 'Show images' and 'Report spam'. Below the message body, it says 'Images are not displayed. Display images below - Always display images from connect@send.vikuna.io'. The message is from 'Vikuna <connect@send.vikuna.io>' and was sent at 2:01PM (3 minutes ago). The message content is a ContractNest invitation:

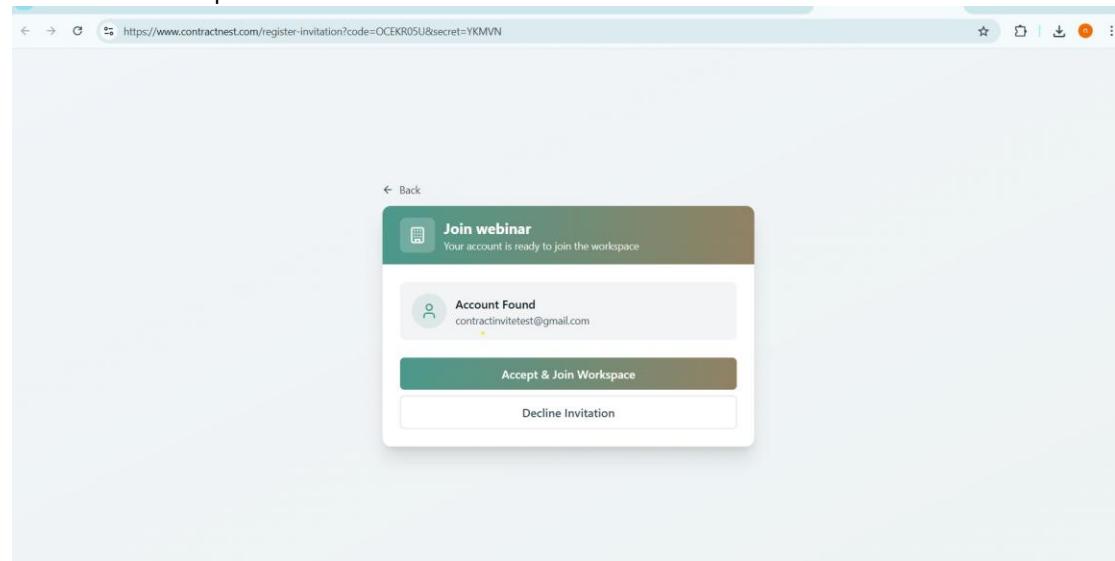

ContractNest
Hello contractinvesttest,

The screenshot shows an email in the Gmail inbox. The subject line is 'Vinay Tiwari invited you to webinar'. The message body starts with 'ContractNest' and 'Hello contractinvesttest,'. It continues with 'Vinay Tiwari has invited you to join webinar on ContractNest.' and 'Click the button below to accept the invitation and get started:' followed by a large blue 'Accept Invitation' button. Below the button, it says 'Or copy and paste this link in your browser:' and provides the URL: <https://www.contractnest.com/register-invitation?code=OCEKR05U&secret=YKMVN>. The message is from 'Vikuna <connect@send.vikuna.io>' and was sent at 2:01PM (3 minutes ago).

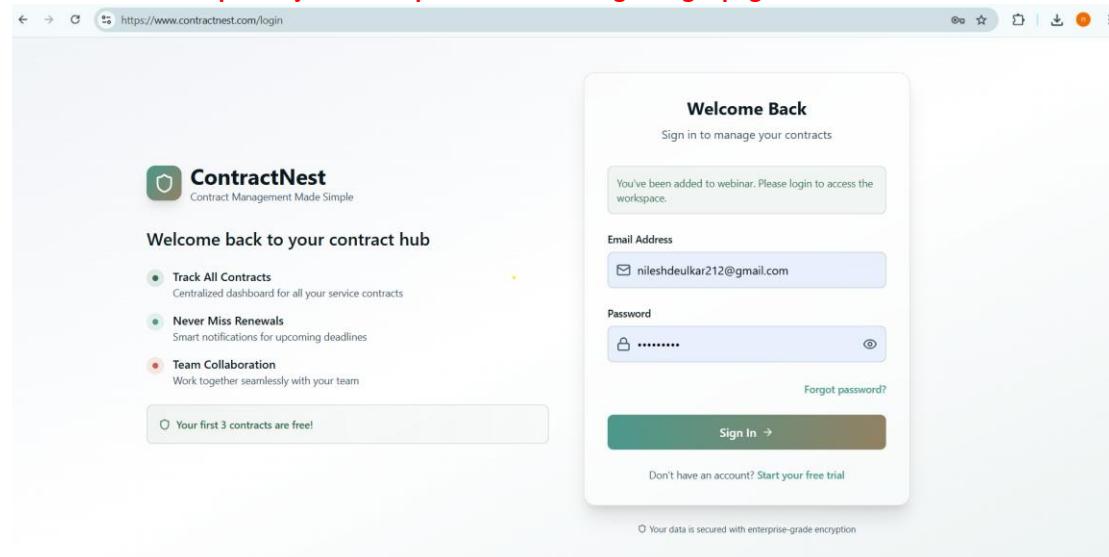

After Sending Invitation and Clicked on Accept its reflecting user already have an account, even user is newly added as invite only and not used before contractnest

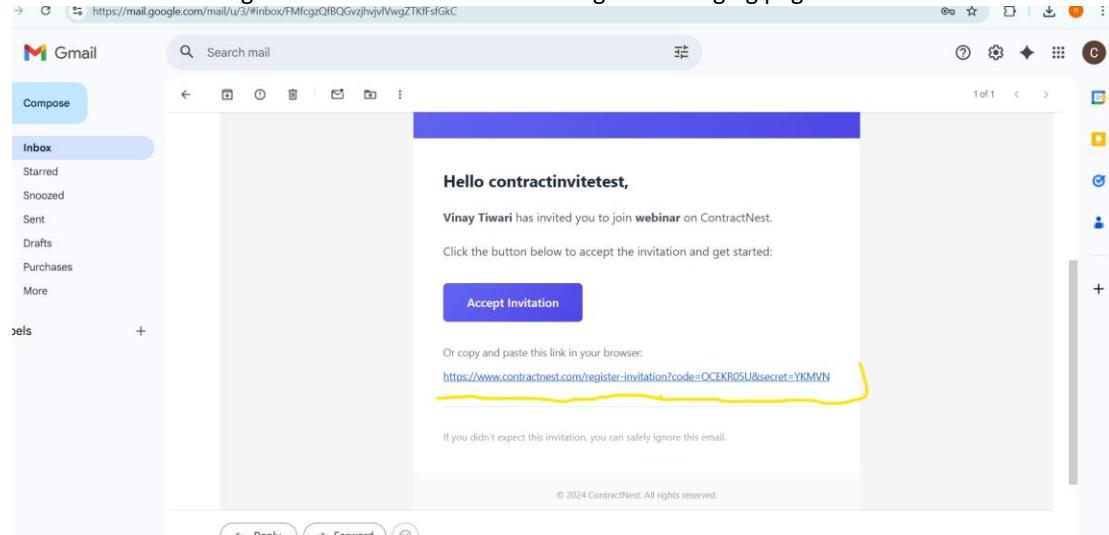

After Click on Accept

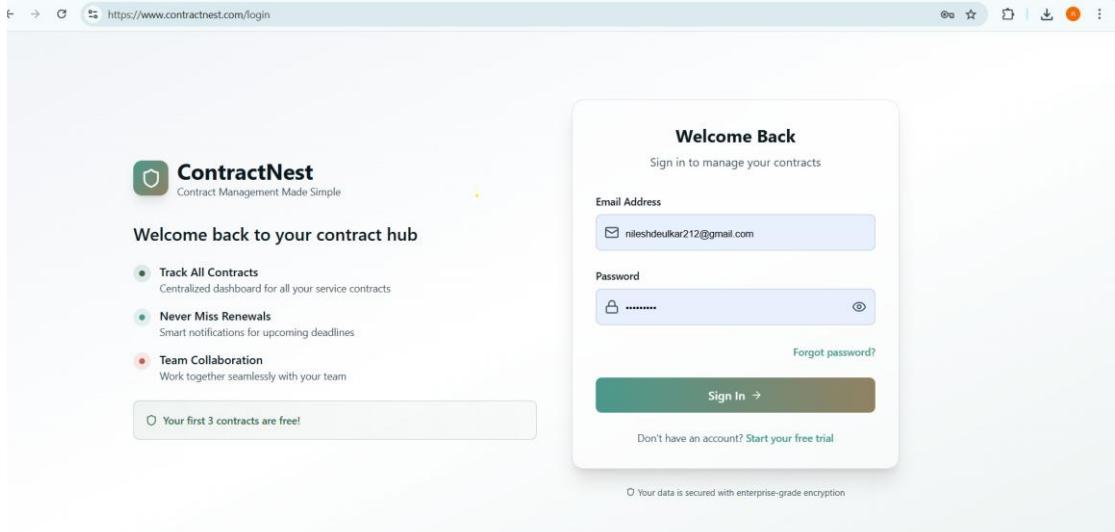

After Click on Accept and join Workspace its redirecting to login page

After Click on New registration link it is also redirecting to new logging page

If we send invitation to existing tenant then system automatically create random user profile.. it should have some validation failure if user already in system..

This screenshot shows the 'Settings' > 'Users' page in ContractNest. The left sidebar has sections for 'Getting Started', 'Dashboard', 'Operations', 'Contracts', 'Catalog Studio', and 'Settings'. The 'Settings' section is expanded, showing 'Configure' and 'Need help?'. The main area displays a table of team members. A yellow circle highlights the 'Configure' section in the sidebar. The table shows four active users: 1. Vinay Tiwari (#VINATIWA, Owner, nileshdeulkar212@gmail.com, 7728642333, Team checked) 2. Box B (#BOXQB777, boxb@b.com, 9812121212, Team checked) 3. create14 c (#CREACIJ, create14@c.com, Team checked) 4. komal chaudhari (#KOMACHAU, komalchaudhari1200@gmail.com, Team checked). The table includes columns for 'Search team members...', 'Filters', and 'Invite Team Member'.
